Mr. Lowell,

A quick update: we are shooting for the afternoon of September 29<sup>th</sup>, 2016, to meet in the EPA Boston office with the operators and co-permittees of the currently effective NPDES permit MA0003590. Please let me know if you're available then.

Thanks,

Undine Kipka

**Subject:** DCR as co-permittee on individual NPDES permit MA0003590 (MBTA Commuter Rail Maintenance Facility): meeting September/October 2016

Dear Mr. Lowell,

I hope you're well.

I am the industrial NPDES permit writer drafting the reissuance of the individual permit for the MBTA Commuter Rail Maintenance Facility. DCR is currently named as a co-permittee. I would like to set up a meeting with you (as the representative for DCR storm water permitting and infrastructure) as well as representatives from MBTA, Keolis, the City of Somerville, and DW NP LLC to discuss the reissuance of the permit. At this point, the meeting would be scheduled in late September or early October 2016. Please let me know of your availability for this meeting and I would be happy to answer any questions you may have in the meantime.

Sincerely,

Undine Kipka
